## ARCHITECTURAL CONCEPT

The 115 metre long podium façade utilizes a flat 2 dimensional geometric tessellation patterned screen, creating a visual effect of repeated three dimensional cubes.

The decorative façade is a modern interpretation of the historical shophouse streetscape, composed of varying heights, fine textures with intricate and colourfully detailed decorations. Vertical slots accentuate the façade screen as an expression of the shophouse party wall rhythmic datum.

Located at the fringe of Little India conservation area, the scale and textures created by the contemporary façade not only relate to the surrounding neighbourhood, but serve to create a distinct identity for the development. A vibrant and colourful façade reflects the multi-sensorial aspects of Little India and pays tribute to her historical shophouses by continuing the theme through a contemporary approach.

## AT THE CENTRE OF IT

Perfectly situated in the heart of Serangoon Road, at the fringe of the city, Centrium Square offers unparalleled access to the Central Business District, Marina Bay and Orchard Road.

Within walking distance to Farrer Park MRT and easy access to major expressways such as the CTE and PIE means that getting to and from work has never been easier.

Surrounded by a wealth of amenities as well as the charms of Little India, Centrium Square truly offers the best of both worlds.
